

COST EFFECTIVE FILTRATION

Filter: T-type for Fine Sanitary Filtration.

This T-type sanitary housing is rated for 150 psi pressure and has a quick-release clamp closure which is safe for compressed gas applications.

Rosedale's sanitary service filters for sterile filtration are constructed with housings of electropolished 316 stainless steel. Outlets and inlets have sanitary flange connections. All internal surfaces can be visually inspected and easily cleaned in place. The housing uses an industry standard 222 or 226 style cartridge.

APPLICATIONS

Dairy, food, and beverage processing, sterile filtration for pharmaceuticals, and sterile air/gas filtration. They are also excellent pre-filters used upstream of membrane filters.
